SUMMARY

Crypto-native growth operator. I build the systems, tools, and user flows that turn communities into real acquisition and retention. Built a 292k-user channel before product launch, shipped bots and gamification from scratch, and reported directly to the VP of Growth across a five-brand DeFi ecosystem. I came up through community, and that's my edge: I know what makes users show up, stay, and come back, not just what a dashboard says. Web3 since 2017, German and English, remote and fast-moving.

EXPERIENCE

Growth & Community Lead, Mimo Capital - Remote | Sep 2019 – May 2026

Grew from junior community manager to reporting directly to the VP of Growth, owning growth across a multi-brand DeFi, RWA and non-custodial wallet ecosystem.

- **Managed** a distributed team of **4 local Community Managers**, plus a **social media manager and designer**, across X, Instagram, YouTube, Telegram, Discord, and Reddit.
- **Grew ecosystem reach** to 161.8k X followers, 20k+ Telegram members at peak, and supported products that reached an \$80M TVL peak.
- **Led crisis communication** efforts during the TenX-to-Mimo rebrand, holding a brand-new community together under public and legal scrutiny while **managing sentiment and trust** across channels through the transition.
- Translated raw **community feedback** and my own expertise into actionable Figma specs, **directing** developers and designers **to ship critical UI/UX improvements for live and pre-launch products**.

PROJECTS & BRANDS (under Mimo Capital)

Growth & Community, Aya (Pre-Launch) - Remote

- **Built a 292k-user acquisition channel from zero before product launch.** Scoped the build, hired and managed the developer, and shipped a Telegram mini-game collection that hit 292k users and 15k active players pre-launch.
- Built AyaCommunity as a separate **growth engine** with local communities, managers, and events across India, Indonesia, Vietnam, and the Philippines.
- Prepared launch-ready GitBook FAQs and user guides with **AI tools** to support onboarding & user readiness.

Community, Events & Partnerships, ONE OF US .fit - Global

- **Built and ran community, social, and ops** for a global fitness-crypto brand. **Drove 7,000+ event participants** in 2025 and maintained a **2,500+ active Telegram community**.
- **Represented the brand** at global Web3 events and organized activations in the Philippines to grow awareness and top-of-funnel engagement.
- Streamlined operational tasks and workflows through AI tooling.
- Kept conversations with **partners and KOLs** going, managed communication with them for social media and media assets.

Growth, Community & Support, Parallel & Kuma - Remote

- **Scoped and shipped a Discord raffle and points bot** end to end with no existing playbook. Ran over 100 engagement raids on **multiple brand accounts** that **grew** per-post interaction to more than **400%** across both communities.
- **Led community, growth, and support across Parallel and Kuma**, covering Discord, Telegram, governance forums, and social channels for two DeFi protocols.
- Built governance forums and supported proposal management for both DAOs.
- **Built, grew and moderated communities at scale**, including Kuma (111.3k X followers, 5.3k Discord) and Parallel (1.5k Discord, 3,079 Telegram).

Junior Community Manager, TenX (later rebranded to MIMO) - Remote | Feb 2019 - Aug 2019

- **Drove the TenX App Store rating from 3.3 to 4.6 in 2 weeks** through a targeted **power-user campaign**, tying five-star reviews to debit-card waitlist priority.
- Managed the **international community** for a crypto payments and wallet product, with ownership of German-speaking users and **localization** across the app, website, blog, FAQs, Onfido flows, and compliance content.
- Navigated complex regulatory environments by managing **compliance-sensitive user communications** across English and German markets.

EDUCATION

Higher Vocational School & Apprenticeship in Electrical Engineering finished with good (1,6/6; 1 being the best)

CORE COMPETENCIES

Community Management | Discord, Telegram, X, Reddit | Community Growth | AI tooling | Engagement Strategy | Social Media Management | Cross-functional Collaboration | User Retention | Operations | Crisis Communication | Ambassador Programs | DeFi, Web3, Crypto | Fintech | Tokenized Assets | Product Feedback | Team Leadership | Basic SQL | Knowledge Base / FAQs | Localization & Translation | Native German & Fluent English
