SUMMARY

Community & Social Lead with 8+ years leading multi-market community, social, and engagement strategies across high-engagement digital ecosystems. Proven track record managing distributed teams, external partners, and cross-functional initiatives, while turning community sentiment into clear actions for product, operations, and leadership. Experienced in culturally relevant campaigns, creator collaborations, and high-stakes community communications across EMEA and global markets.

EXPERIENCE

Community Lead, Mimo Capital - Remote | Sep 2019 – May 2026

- Led international community and social operations across a multi-brand digital ecosystem, aligning messaging, audience engagement, and community initiatives across multiple products and markets.
- Managed a distributed team of 4 Community Managers, alongside social and creative support, setting priorities across X, Instagram, YouTube, Telegram, Discord, and Reddit.
- Sourced, onboarded, and managed external developers and contractors to deliver technical community tools (Discord bots, Telegram mini-games) on time and within scope.
- Led community crisis communications through a high-profile brand rebrand (TenX to Mimo), managing user trust, sentiment, and retention across EMEA markets during a period of significant public scrutiny.
- Scaled community reach across key channels, growing X to 161.8k followers and Telegram to 20k+ members, while supporting audience-facing initiatives across product launches and ecosystem campaigns.

BRANDS & INITIATIVES (under Mimo Capital)

Community, Events & Partnerships, ONE OF US .fit - Global | Aug 2024 – Apr 2026

- Built and managed community and social channels for a global fitness x crypto brand, supporting partnerships, brand collaborations, and communications.
- Worked with local KOLs and creators to establish ONE OF US as a trusted brand tied to influential people.
- Helped drive 7,000+ unique participants across events in 2025 and maintained a Telegram community of 2,500+ active users.
- Represented the brand at international events and led local activations to grow awareness, engagement, and top-of-funnel community interest.

Community & Growth, Aya (Pre-Launch) - Remote | Jul 2024 – Apr 2026

- Built a pre-launch acquisition channel through AyaGames: identified a top-of-funnel gap, scoped requirements, hired and managed an external developer, and launched a Telegram mini-game that reached 292k+ total users and 15k active players before core product launch.
- Translated raw community feedback into actionable Figma specs and partnered with developers and UX designers to turn that into product and onboarding improvements ahead of launch.
- Built a multi-market community engine across India, Indonesia, Vietnam, and the Philippines, coordinating local communities, managers, and events.
- Prepared launch-ready GitBook FAQs and user guides to support onboarding & user readiness.

Community, Growth & Support, Parallel & Kuma - Remote | Jul 2020 – Apr 2026

- Led community, engagement, and support across two digital products, overseeing Discord, Telegram, forums, and social channels while maintaining clear communication with highly engaged online communities.
- Scoped requirements, hired and managed an external developer, and shipped a Discord raffle/points bot used across both communities to improve engagement and retention.
- Built and maintained community feedback loops, using audience sentiment and recurring issues to support internal decision-making and community planning.
- Built, grew and managed communities at scale, including Kuma (111.3k X followers, 5.3k Discord) and Parallel (1.5k Discord, 3,079 Telegram).

Junior Community Manager, TenX (later rebranded to Mimo) - Remote | Feb 2019 - Aug 2019

- Managed international community communication for a payments and wallet product, with ownership of German-language users and localisation across app, website, FAQs, blog, and compliance-related content.
- Growth-hacked our App Store rating from 3.3 to 4.6 by incentivising a core cohort of German power users, tying their reviews to debit card waitlist priority.
- Navigated complex regulatory environments by managing compliance-sensitive user communications across English and German markets.

EDUCATION

Higher Vocational School & Apprenticeship in Electrical Engineering finished with good (1,6/6; 1 being the best)
